Thomas Kjelgaard – Wiley X R&D Fishing Team

Wiley X Europe have put together a Research & Development Fishing Team consisting of some of the best sport anglers in Denmark, Thomas Kjelgaard is one of them. Here is what Thomas Kjelgaard thinks of his new CURVE glasses.

I have now used my CURVE glasses with polarized prescription lenses on 10 fishing trips in bright sunshine, cloudy weather and rain. They are particularly good in sunshine; where I really benefit from the correction and the advanced polarized technology.

I am very pleased with the glasses and the outstanding polarized lenses help me spot fish, small reefs etc. Overall I have only good things to say about my CURVE, which feel strong and reliable as if they could not break. I look forward to test it further with the patented Facial Cavity Seal™ applied, to see if the Facial Cavity Seal™ will help me against pollen.

Wiley X Europe will soon publish more exciting stories on our website from anglers and other Wiley X owners, who will share their stories and experiences with their glasses.
