Company profile...

Our goal is to be market leading in design, quality and function, offering a total-solution concept.

We look ahead and develop tomorrows products with the best combination of price, performance, quality and function.

We manufacture our products using only high quality components delivered from internationally renowned and professional brand-name suppliers.

The first TallyKey pedestals were installed in 1994 and have proven their enduring functionality, even in harsh harbour environments.

You're never alone with TallyKey!

All our products are backed by a customer-friendly service policy involving full support.

Contact your dealer or TallyKey A/S for more information about T2, T6, T8, the TallyCard System and TallyManager.

Market leaders in design, quality and function

Advanced and elegant supply solutions...

• The TallyKey product range:

TallyKey T6

High quality, elegant aluminium-pedestal

- The T6 pedestal can be furnished with up to six power outlets and up to four water taps.
- Option of one- or three-phase power outlets of up to 63 amps, so even big boats can be supplied without problems.
- Other options: electricity meters, coin-operated system or TallyCard system for individual payment according to consumption.
- All T6 pedestals have a built-in light at the top consisting of two 11 W low-energy bulbs.

Above left: T6 with hose rack and water tap.
Above right: T6 with coin insert.

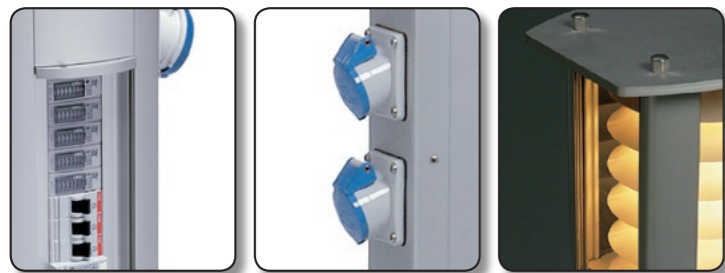

T6 SOS

- RAL3002 colour.
- Prepared for life bouy Ø 75 cm.
- Prepared for 6 kg. fire extinguisher.
- Optional yellow lamp.

TallyKey T2

Classic, slender aluminium-pedestal at the best price on the market

- The T2 pedestal can be furnished with up to six power outlets and up to four water taps.
- Optional: electricity meters or TallyCard for payment according to consumption.
- The T2 is available with or without a low-energy light in the top.

From left to right: Fuses and power meters, outlet close-up and the stylish T2 lamp.

The T2 pedestal is the first choice for the quickest returns on your investment. It's simply the lowest price solution available!

TallyKey T8

Elegant super-yacht supply pedestal

- The TallyKey T8 pedestal means our stylish and elegant danish design can now also supply super-yachts with power and water.
- For the registration of consumption charges the T8 can be equipped with electricity and water meters, or the TallyCard payment system.
- Electrical outlets: Max. 600 A.
- Water taps, optionally with water meters.
- Built-in low-energy lamp at the top.
- Other options: Outlets for telephone (RJ11), Network (RJ45), or antenna (coax).

TallyCard The market's most flexible card system for payment and access control

- Reliable system without vulnerable contacts or magnetic strips.
- Many possible uses.
- Administration via user-friendly TallyMaster+ PC software.
- Easy installation without any vulnerable data cables.
- Easy to use - no buttons or complicated procedures.
- Optional TallyMate card vending machine, offering customers self-service day and night.

TallyCards with custom layout

From left to right: Separate TallyCard reader for access control, T6 and T2 pedestal with TallyCard.

TallyManager software

Our **TallyManager software** is the ideal tool for managing a marina or campsite. The system is easy and as fast as lightning to use on a daily basis. Everything is done on a touch-screen, a modern and fast way of working.

Booking and selection are done in just a few seconds, using the intuitive, graphic interface.

Your benefits:

- Fast (on-line) booking, inscription and payment.
- Perfect overview.
- Easily manages your contract customers.
- Can be used by anybody with practically no training.
- Manages any TallyCard system.
- Works fine with most economy systems.

Please ask your TallyKey dealer for a demo!
