ENVIRONMENTAL AND PRODUCT SAFETY DATA SHEET

Product

Glasses, demoplate, cups, lids, plates, fixpack, cups delic etc.

Raw Material

Polystyrene (PS)

Additives

Colour

Packaging

Inner: Polyethylene (LDPE) bag
Outer: Corrugated board box

Field Of Application

The products may be used for storage and /or serving of all kinds of foodstuffs, hot as well as cold.

EC Directive 94/62/EC on Packaging and Packaging Waste

The packaging complies with all essential requirements as defined by 94/62/EC. For example minimum adequate amount of packaging, limitation of heavy metal content, recyclable through at least one of the following: reuse, material recovery, energy recovery or composting.

Environmental Aspects

Product

PS is made by refining of mineral oil or natural gas. The polymer consists simply of carbon and hydrogen.

Packaging

PE is made by refining of mineral oil or natural gas. The polymer consists simply of carbon and hydrogen. The corrugated board box is to a large extent made of recycled fibres.

Product Safety

The product fulfil the following:

- EC-directive 2002/72/EC, Material and products made of plastic intended for food contact application
- The products have been tested regarding overall and specific migration of chemical substances to food simulants. The tests have been performed according to EC-directive 2002/72/EEC article 2. The migration is below the limit 10 mg/dm² when tested

with Distilled Water, 3% Acetic Acid, 10% Ethanol and Rectified Olive Oil for 0,5 hours at 40° C.

- Duni manufacturing units are certified according to the international quality system ISO 9001 and 9002. They have also implemented or will implement the environmental management system ISO 14001.

Management of Used Products

Energy Recovery

All the materials are suited for energy recovery. Complete combustion gives mainly rise to carbon dioxide and water. The energy content of plastics/paper is comparable to that of oil/ wood.

Recycling

Recycling of the plastic and the corrugated board is possible for producing new products. Check with the local recycling company.

Validity

This is a copy of a document issued 2009-01-21. It is normally updated every second year or when there is a change in the manufacturing process, in the product or in legislation. To make sure that you have the latest edition, contact Duni AB, Environmental Affairs.
