If inhaled	This product is not a respiratory irritant.
If ingested/swallowed	No specific intervention is indicated as the compound is not hazardous by ingestion but if symptoms occur, consult medial advice.
Other	Show this MSDS to a treating physician or treating doctor at an Emergency ward

Section 5 – Fire Fighting Measures

Extinguishing Media	CO2
Special Fire fighting Procedures	Wear respiratory apparatus. Use water spray, dry chemical, carbon dioxide & foam
Exposure Hazard	Avoid inhalation of fumes

Section 6 – Accidental Release Measures

None	
-------------	--

Section 7 – Handling and Storage

Handling	See Instructions for Use
Storage	Store away from direct heat and damp conditions.
Waste Disposal	If unused dispose of as non-hazardous waste in accordance with local regulations in the UK.

Section 8 – Exposure Controls/Personal Protection

Engineering Measures	None Identified
Personal Protective Measures	Good Clinical Practice
Exposure Limit Values	None

Section 9 – Physical and Chemical Properties

Appearance	Caramel coloured elasticated belt
Odour	N/A
Physical State	Dry and elasticated
pH	N/A
Vapour Pressure	N/A
Vapour Density	N/A

 Print date 25-July-2013

Boiling Point	N/A
Melting Point/Freezing Point	N/A
Solubility	N/A
Density	N/A
Flash Point	N/A

Section 10 – Stability and Reactivity

Stability	Stable under normal user conditions
Conditions to avoid	See IFU
Materials to avoid	N/A
Hazardous Decomposition	N/A
Hazardous Polymerization	N/A

Section 11 – Toxicological Information

Acute Effects	Not Determined
Chronic Effects	
Carcinogenicity	Not Determined
Mutagenicity	Not Determined
Reproductive Effects	No data
Developmental Effects	No data

Section 12– Ecological/Environmental Information

Eco-toxicological data has not been determined specifically for this product. Based on toxicity data on the materials no affects are expected to the environment. However, the product is not biodegradable and discharge to the environment should be avoided.

Section 13 – Disposal Considerations

The recommended disposal technology is incineration at any approved facility. The disposal should always be in compliance with National, Federal, State and Local Regulations. This product should not be discharged to the environment.

USA: if this product as supplied becomes waste, it does not meet the criteria of a hazardous waste as defined under the Resource Conservation and Recovery Act (RCRA) 40 CFR 261

EU: as per the European Waste Catalogue (EWC), in accordance with EC Directive 75/44EEC, the following Waste Code can be used: 18 01 04 00 wastes whose collection and disposal is not subject to special requirements in view of prevention (e.g dressings). However, if the waste in view of prevention of infection needs special requirements, other waste codes shall be used. It is the responsibility of the holder of the waste to determine the actual classification. Waste from private households may be disposed of together with other household waste

If unused dispose of as non hazardous waste in accordance with local regulations in the UK.

Section 14 – Transport Information

Not dangerous goods (ADR, 2003, RID, DOT).

Section 15 – Regulatory Information

United States: This product is regulated under the Federal Food Drug and Cosmetic Act and do not require an MSDS for hazard communication as stated in 29 CFR 1910.1200.

This MSDS is supplied as an additional service.

European Union: This product is a medical device and is regulated under the Council Directive 93/42/EEC (commonly known as the Medical Device Directive). Medical devices do not require a safety data sheet for hazard communication.

This safety date sheet is supplied as an additional service.

Hazardous chemicals according to Directive 67/548/EEC and later amendments	Risk Phrase	Safety Phrase
None	None	None
