

Holstebro February 9th 2004

Recommendation

Since the company Toxvig Rustfri A/S was founded in 2000 it has been employed at Arla Foods Hoco – a milk powder factory in Holstebro, Denmark.

Handling both large and small projects we have had between 4 and 19 stainless steel welders from Toxvig working for us over time depending on the number and the size of our projects. Without exception, all welders have been very skilled and professionally dedicated.

~~Whenever Toxvig Rustfri A/S has undertaken any delivery of components, it has been swift and trouble free.~~

We hereby give our highest recommendation of Toxvig Rustfri A/S.

Yours sincerely
