Fedtudskiller

CE overensstemmelseserklæring

Det erklæres hermed, at Scan-Plast fedtudskillere, type 2, 5, 8, 12, 16, 20, 25, 30, 38, 50, 63 l/sek. er i overensstemmelse med kravene af Byggevarereditivret 89/106/EEC og ændringsdirektivet 93/68/EEC.

Harmoniseret standard

EN 1825-1.

Fedtudskillere – Del 1: Principper for konstruktion, ydeevne og prøvning, mærkning og kvalitetsstyring.

Rapport

SPDTI rapport nr. 2006.10.14.0062.0001.

Materiale/kvalitet

Glasfiberarmeret polyester (GAP).

Overensstemmelse mellem produktdirektiver og internt kvalitetssystem er verificeret.

Brandforhold

Fedtudskilleren er beregnet for nedgravning med deraf følgende minimale brandrisici.

Grease separator

CE Declaration of Conformity

Hereby it is declared, that Scan-Plast grease separators, type 2, 5, 8, 12, 16, 20, 25, 30, 38, 50, 63 l/ sec. are in conformity with the requirements of the Construction Products Directive 89/106/EEC and the Council Directive 93/68/EEC.

Harmonized standard

EN 1825-1.

Grease separator – Part 1: Principles for design, performance and testing, marking and quality control.

Report

SPDTI report no. 2006.10.14.0062.0001.

Material/quality

Fiberglass reinforced polyester (FRP).

Conformity between product directives and internal quality system is verified.

Fire conditions

The grease separator is for underground installation with a following minimum of fire risk.
