Derived from
 Urea Ammonium Nitrate

Non-Plant Food Ingredients

Amino acid complex, natural organic composts, salicylic acid, glycine betaine, proprietary plant complexes.

Green-T impulse™ is a proven amino acid mix and sucrose combination derived from natural stress resistant plant complexes. **Green-T impulse™** increases potassium and calcium levels within plant cell walls and improves stress tolerance while decreasing H₂O₂ levels. This aids in the reduction of wilt stress. It is a biologically active nutrient source that can promote a strong healthy turf plant.

Salicylic Acid (SA) is a key molecule that stimulates the plant's Systemic Acquired Resistance (SAR) response which stimulates its natural defense mechanism against disease. **SA** also improves the plant's ability to uptake nutrients.

- Weight per gallon: 10 lbs. (4.5 kg)
- pH: 4.8 - 5.2

Amino Acid with Salicylic Acid

L-Amino Acid & Sugar complex reduces plant stress and increases potassium and calcium levels within the plant

Directions for Use:

Greens, Tees and Fine Turf: Apply 3.0 - 9.0 oz of **Green-T impulse™** with 1.5 - 2 gallons of water per 1,000 sq. ft. (1.0 - 3.0 gallons of **Green-T impulse™** with 66 - 88 gallons of water per acre) every 7 to 14 days throughout the growing season.

Fairways, Roughs, Sports Turf and Lawns: Apply 1.0 - 2.0 gallons of **Green-T impulse™** with 44 - 88 gallon of water per acre (3.0 - 6.0 oz of **Green-T impulse™** with 1 - 2 gallons of water per 1,000 sq. ft.) every 2 weeks during stress periods.

Application Rates for Green-T impulse™			
Fluid Oz/ 1,000 sq. ft.	Gallons/ One Acre	ML/ 100 M ²	L/HA Litre/ Hectare
3.0	1.0	95	10
6.0	2.0	191	20
9.0	3.1	286	30

Available Container Sizes:

- 2 x 2.5 gal (2 x 9.46 L) Case
- 30 gal (113.56 L) Drum
- 55 gal (208.20 L) Drum
- 275 gal (1040.99 L) Tote

Store above 40° F. Do not allow to freeze.
