bitte immer angeben

Subject: Technical Datasheet RE-Wood®

### Material:

RE-Wood® is a WPC material (wood - plastic - compound) that consists of 80% wood (spruce) and 20 % plastic (recycled polypropylene). The material can be mixed with colours (masterbatch).

### Use:

RE-Wood® is used for the production of several mathematical teaching aids and toys.

### Conformity:

RE-Wood® is conform with toy safety standard EN 71-3 and the use for children over 3 years is harmless.

Items that are made out of RE-Wood® are conform with toy safety standard EN 71-1 and EN 71-2.

Declaration of conformity are available on request.

### Application:

Goods made out of RE-Wood® can be cleaned with water.

Further information on request.
