A Story of American Ingenuity

West Coast Corporation founder W.R. Lummis invented the Original KEY-BAK® Self-Retracting Key Reel in 1948. As a switchman on the Pacific Electric Railway in Los Angeles, he saw brakemen and switchmen injured when their dangling key chains were caught on moving trains.

Lummis had an idea for a reel that would keep keys within reach at the wearer's side, safe from snagging on moving rail cars and machinery. His idea became the first KEY-BAK®.

Over 70 years after the first KEY-BAK® was produced, millions are in use worldwide in more than 20 different professions. West Coast Corporation continues as a solid, employee-owned company, creating high-quality products people depend on daily.

Proudly Servicing Hard Workers Everywhere

- Facilities / Maintenance

EMPLOYEE **OWNER** SPOTLIGHT

MEET WAYNE

MASTER TINKERER FOR OVER 30 YEARS

WAYNE HAS BEEN A PROBLEM SOLVER AT WCC FOR OVER 30 YEARS. FROM NEW PRODUCT DESIGN, MACHINE AUTOMATION, AND ASSEMBLY OPTIMIZATION, WAYNE'S FINGERPRINTS ARE ON ALMOST EVERY KEY-BAK® PRODUCT SOLD. WHEN ASKED WHAT HE WAS MOST PROUD OF WAYNE RESPONDED,

***"SEEING MY NAME ON THE
PATENT PLAQUE FOR THE MINI-BAK®
RETRACTABLE REEL."***

OVER 20 YEARS LATER WE STILL USE THE SAME DESIGN TO HELP ENSURE EVERY MINI-BAK WILL LAST FOR MORE THAN 1-MILLION PULLS.

FROM ALL OF US AT WCC, THANK YOU WAYNE FOR BEING AN EXCEPTIONAL EMPLOYEE OWNER!

SUPER48™ RETRACTABLE KEYCHAIN

Our toughest retractable keychain is available in 3 styles: Heavy Duty, Super Duty, and Xtreme Duty.

Versatile back clip converts from a belt clip to belt loop for added security (pin included).

SUPER48™ PLUS RETRACTABLE KEYCHAIN

New ambidextrous ball joint lock design allows wear on the left or right hip.

Bigger belt clip fits 2 1/4" duty belts.

Simpler to switch from a belt clip to a belt loop using the belt clip lock.

Oversized 1 1/4" black split ring.

TOOLMATE® TOOL TETHERS

With only minimal retraction force, the ToolMate® self-retracting tool tethers keep the tethers as short as possible while not making the tool more difficult to use.

Effectively solving snagging and entanglement problems known to users of traditional tool lanyards.

Certified to ANSI-121

ToolMate® retractable tool tethers are the first to be certified to ANSI /ISEA 121-2018.

Safety Features

To ensure the utmost in safety, we have included a tell-tale in the nylon strap. This quickly identifies if the unit has been compromised so it can be taken out of service.

3rd Party Tested

All KEY-BAK® PRO ToolMate® units are tested and verified through a third-party testing facility to a 2:1 safety factor.

TOOLMATE® LINK ATTACHMENTS

**CERTIFIED
ANSI-121**

Many tools are not tether ready. Instead of replacing the tool before it's time, KEY-BAK® offers a line of tool attachments that make them ready to tether and prevent harm.

All ToolMate™ Link tool attachments are rigorously proven by dynamic drop 3rd party testing to a 2:1 safety factor.

WEB TYPE TOOL TETHERS

**CERTIFIED
ANSI-121**

Secure up to 15LB (6.8kg) to your harness or structure to reduce the risk of injuries and prevent dropped tools and keep tethering costs to a minimum.

Web type tool tethers feature auto-locking carabiners that prevent the gate from opening accidentally when in use.

**With over 70 years in business, when we say
“Lifetime Service Policy,” we really mean it...**

“In 1980, I became a franchised Snap-On Tool dealer in the Chicago area. The first thing my field manager gave me was a KEY-BAK key reel for my delivery truck and keys. My first thought was, “How long will this new device last?”

Well, I am no longer a Snap-On dealer, but I have used my Original KEY-BAK retractor every day since then. It’s been on my belt for 34 years!

Sadly, this past week the spring has failed and I will have to retire this fine tool. I am sorry that I ever questioned the quality of your device. It truly lasted longer than I ever could have imagined.” - C.N.

**AN EMPLOYEE
OWNED COMPANY**
