

MAGNUM

Raw and unique

MAGNUM

Raw and unique

Would you like your home to have a raw and enviornmentally-conscious expression?

This collection is made from recycled wood sourced from an FSC certified manufacturer. The rustic black olive nuance and the exposed nail holes provide a raw expression to make every unit unique. This collection contains both tables and storage furniture, in multiple variations and can be used to create a sustainable expression in the living room, dining room or bedroom.

SUSTAINABLE

We care about our environment, and we believe in a sustainable future. Because of that, we use wood from recycled materials for this line of products.

In 1998 RECLAIMED designer, Ian Burden became the first to use 100% recycled wood to make lifestyle furniture. 20 years later, this focus on environmental sustainability crowned RECLAIMED Green World Champion.

Today RECLAIMED combines Ian's spirit of innovation with handmade English carpentry and French polishing to design beautiful furniture for your lifestyle.
