SHIMANO ZODIAS ROD SERIES

This company's newest rod series offers casting and spinning rods in actions and lengths for accuracy, long distance or finesse, depending on your need. All the rod blanks feature Hi-Power X construction, eliminating blank twist for both better casting distance and accuracy. Plus, Fuji semi-micro stainless steel frame guides and CI4+ reel seats add to overall sensitivity and strength. The rods will retail from \$189.99 to \$199.99, depending on the model.

SKEETER ZX225

If you want to be tournament ready the moment you pull your boat from the dealership, this may be the rig for you. This package starts with a 20-foot ZX hull and Yamaha VF225 outboard. Plus, you get two Lowrance HDS-9 Gen 2

touch units, an 8-foot Power-Pole, 112-pound-thrust Minn Kota Fortrex trolling motor and a dozen more high-performance features that used to be big-dollar add-ons. You will roll out of the dealership ready to fish for \$48,995.

STARBRITE ULTIMATE VINYL GUARD WITH PTFE

A boat's hull isn't the only thing that needs to be protected to ensure a long life for the biggest investment you will make in this sport. The seats and other leather, rubber and vinyl sections of the interior will rot or crack if not protected. This new product is like sunblock for these areas. The Ultimate Vinyl Guard bonds to these surfaces and prevents UV damage and fading while repelling stains. Plus, this product will restore moisture to older vinyl to enhance its appearance. Remember, this stuff works on your truck, too. Retail price is \$28.99.

TRITON 20 TRX

This brand-new model from Triton was designed for serious anglers who may not have the garage space for a 22-foot rig. It shares the same super-wide 95-inch beam, massive casting decks and huge center storage as the 21 TRX. Plus, it comes with the full array of 21 TRX features. Add a custom trailer and 250-horsepower Mercury OptiMax Pro XS outboard and your price is \$49,995.

WILEY X TIDE

This new frame is not only stylish, but extremely protective. Like all Wiley X sunglasses, the Tide is rated for high velocity and high mass impact safety standards. In other words, a bullet weight to the lens will not ruin your day on the lake. These frames also come equipped with a removable facial cavity seal — and they are prescription ready. Retail price is \$150.

STRIKE KING 8XD

The Bassmaster Classic will be your first look at this long-anticipated crankbait from Strike King. The 8XD fits neatly between the ever-popular 6XD and the great big 10XD. You will be able to crank in the 15- to 22-foot range, depending on the line size you are using. This crankbait weighs 1.3 ounces and will be available in 23 pro-selected colors.

YO-ZURI 3DB

This is not a new bait from Yo-Zuri, but a series of baits that includes two patented features. First is a 3-D Internal Prism, which sends reflected light from the bait to elicit strikes. The second patented feature is the Wave-Motion Vibration Ribs. This ribbed belly is said to create multiple and distinct vibrations that fish can detect with lateral lines. The series includes the Crayfish, Wake Bait, Flat Crank and Vibe, each retailing for \$9.99.
