

Remain out of sight and protected at the same time

Specialist manufacturer Wiley X, Inc is offering hunting and outdoor enthusiasts worldwide two new high-performance options of its stylish yet functional protective eyewear.

New for 2016, Wiley X's popular Active Series WX Rebel and Changeable Series WX Valor will both be available with Realtree Xtra camouflage frames.

These glasses will not only look great on hunters and shooters but they also perfectly complement other Realtree Xtra camou apparel and accessories.

The Realtree Xtra pattern blends perfectly all year round in a variety of habitats, making it the logical choice to incorporate into these two popular styles. They also deliver the crystal-clear vision and superior eye protection outdoorsmen have come to expect from Wiley X.

The WX Rebel will pair Wiley

X's new camouflage frame with glare-cutting polarised smoke green lenses that are ideal for use near water, snow and other high-glare environments.

This lightweight, comfortable Active series frame is ideal for medium to large head sizes and features soft rubber nose to ensure a snug fit during strenuous activities and hot, sweaty conditions.

The camou WX Valor features an ultra-lightweight half-frame design that is an ideal fit for small to large head sizes and comes outfitted with Wiley X's versatile smoke grey lenses for all-day wear.

It also offers another

important advantage of the Changeable series – the ability to quickly and easily switch lenses from a range of available lens types and tints.

Hunters, shooters and outdoor enthusiasts will want to wear these stylish and comfortable glasses everywhere they go.

Both models meet stringent ANSI Z87.1 High Velocity and High Mass Impact safety standards as well as European EN.166 standards for true OSHA-grade vision protection.

Plus, the WX Valor takes protection a step further, exceeding the military's stringent MIL-PRF-32432(GL) ballistic impact standards.

Wiley X is the only premium sunglasses brand with this level of protection in every pair of adult sunglasses it makes – a big reason why the company is a leading provider of protective eyewear products for the US military and law enforcement.

Both these Realtree Xtra camou shades are Rx-ready, making them great options for outdoor sportsmen who need accurate corrective prescription lenses in their shooting sunglasses.
