

ECLIPSE PROFESSIONAL TORQUE HANDLES (FEMALE FITTING)*

- For many applications a spanner end fitting rather than a socket is the best or, often, the only solution. Typically this will be because the joint is a pipe union (such as a brake pipe)
- 9x12mm and 14 x 18mm rectangular type handles

Professional Torque Handles - Ratchet Head

Part No.	Square Drive	Range	Range	Length	Weight
	Inch	N.m	lbf.ft	mm	kg
EFTH-60	9x12	8-60	5-45	300	0.55
EFTH-100	9x12	20-100	15-80	340	0.6
EFTH12-200	9x12	40-200	30-150	421	0.78
