

Premium quality features

— Silicone lubricant coating

— Triple facet bevel

Special design of triple bevel cannula
For optimal perforation
and easy penetration

Super silicon oil and
"SuperStick" oil
adhesive technology

Facilitated penetration of needle
with painless experience

Thin wall technology

Less pressing force reduce injection pain and
injection duration, dramatically reduce the
risk of insulin leakage

Inner cannula electropolishing process

Avoid forming a scab
after long term insulin injection

Fit for major brands of insulin pens

Insulin Pen	Brand
Novo Nordisk	InDuo® / InnoLet® / NovoPen® / NovoLet® / Innovo® / Flex Pen®
Eli Lilly	Humulin Pen® / Humalog Pen®
