To our customers and business partners

November, 2018

Information about a criminal incident,

The following information is about a criminal incident in HG Poland. Unfortunately, it probably affects one of our former employees in HG Poland.

A former Polish employee from HG Poland has been interrogated by the police, since he probably together with two accomplices in Poland, has been involved in burglaries. They should reportedly have stolen both living animals and skin stocks.

Polish police have started a full investigating, so the above is what we know for now.

HG strongly condemn the deed. We will cooperate and help the authorities in all the questions they may have.

Best regards,

Hedensted Gruppen A/S
