

DATA SHEET – XEROX PREMIUM NEVERTEAR

Description:-

- Coated white matt polyester film suitable for laser printing
- Range of calipers, 95-120-145-195-270-350 microns.
- Waterproof, tear proof, greaseproof, alcohol resistant
- Durability without lamination or encapsulation
- Trouble free running on dry toner equipment
- Easily guillotined & punched
- Suitable for harsh & outdoor conditions, frequently handled documents
- Maintains flatness, no curling.
- Extremely strong toner adhesion => scratch resistant print
- Recyclable as category 7 plastic
- Now with Antimicrobial feature – see page 2

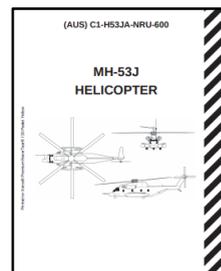

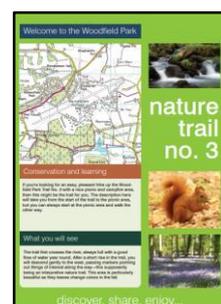

Compatibility:-

- Suitable for most dry toner (laser/LED/flash fusion) print processes, both mono and colour small-volume, mid-volume & production machines. See table below for guidance.

Applications:-

- Maps
- Manuals / Instruction books / Outdoor guides
- Signage, Tags, tickets
- Sports numbers

Antimicrobial Function for Extra Protection

Xerox Premium NeverTear was always designed to be easily cleaned with soapy water, bleach or safely disinfected with a wide variety of alcohol and solvent based cleaning agents.

We have now incorporated an inherent Antimicrobial agent into the product to offer antimicrobial product protection against unwanted microbe growth, complimenting existing cleaning protocols.

PARTICULARLY IDEAL FOR:

- Printed materials and signage in hospital and healthcare environments
- Protecting menus in restaurants, cafes, coffee shops and takeaways
- Any printed information which will be handled frequently, e.g. product selection / reference charts, procedure manuals
